Chapter 1

Enrollment (Fall 1989 and Fall 1990)
Student Fees By Semester (1980 - 1990)

The reports which follow summarize data submitted by West Virginia's public and private institutions of higher education. The data snapshot the enrollment status ten days following registration for the semester. Ten-year tables show trends in headcount and full-time equivalent (FTE) enrollment.

Highlights of Public College/University Data

Headcount enrollment decreased significantly from 1983 to 1985. However, since then enrollment has grown continuously, reaching an all-time high in 1990.

While the number of full-time students peaked in 1990, the number of part-time students has been decreasing in recent years. FTE enrollment decreased from 1981 through 1985, and then began to increase, reaching its highest level in 1990.

The number of male students peaked in 1981, dropped slightly through 1983, continued to decrease at a more rapid rate through 1986, and then started an upward trend through 1990 when enrollment almost reached the peak of 1981. The number of female students also declined in the 1983-1985 period, but then began to escalate through 1990, reaching an all-time high.

The number of students, categorized by geographical residence, has remained relatively stable during the past ten years. The number of students from in-state peaked in 1983, reached a low point in 1985, then began a steady upward pattern through 1990. The number of out-of-state students decreased steadily from 1981 to 1986, then increased through 1990.

The period between 1980 and 1990 was a time of dramatic increases in student fees for both in-state and out-of-state students. Student aid funding did not increase at a comparable level during this period.

Definitions of the various enrollment categories used by the Central Office of the State College and University Systems appear on the following pages.

Definitions

Career-Technical Student - A lower-level undergraduate enrolled in a postsecondary certificate, diploma, or associate degree program of less than four years which prepares for immediate employment.

First-Professional Course - A course designed primarily for students enrolled in a program leading to a first professional degree.

First-Professional Student - A student enrolled in a program leading to the first professional degree in Denistry (D.D.S.), Law (J.D. or L.L.B.), or Medicine (D.O. or M.D.).

First-Year Graduate Student - A graduate student who is enrolled in a master's degree program or who has completed fewer than 36 semester hours of graduate credit.

Foundation Level Course - A course which is preparatory for admission to a career-technical, college transfer, or four-year or five-year bachelor's degree program.

Full-Time Equivalent (FTE) Student - A statistic derived from the student-credit-hour output of an institution.

A. *Undergraduate FTE*: the equivalent number of students derived by dividing by 15 the total undergraduate student credit-hours produced per semester in foundation, lower-level, and upper-level courses.

B. *First Professional FTE*: the equivalent number of students derived by dividing by 15 the total first professional student credit-hours produced per semester in first professional courses (Law only).

C. *Graduate FTE*: the equivalent number of students derived by dividing by 12 the total graduate student credit-hours produced per semester in graduate courses.

D. *Medical FTE*: the same as the headcount enrollment (Denistry and Medicine only).

Graduate Level Course - A course designed for students enrolled in a graduate degree program and normally limited to students holding a bachelor's degree.

Graduate Level Student - A student enrolled in a master's or doctoral degree program other than the first professional degree programs in Denistry, Law, and Medicine.

Headcount - A student enrolled in one or more courses for credit.

In-State Student - For West Virginia public institutions, a student who lists WV as his/her place of residence at time of registration; for West Virginia private institutions, a student who lists WV as the permanent address prior to enrolling in the insitution.

Lower-Level Student - An undergraduate enrolled in a postsecondary career-technical, certificate, diploma, or associate degree program, in a two-year college transfer program, or in a four-year or five-year bachelor's degree program who has not completed the sophomore year.

Non-Credit Student - A student who is enrolled only in non-credit courses or who is auditing credit courses.

Out-of-State Student - For West Virginia public insitutions, a student who does not list WV as his/her place of residence; for West Virginia private institutions, a student who does not list WV as the permanent address prior to enrollment in the institution.

Part-Time Student - A student enrolled for credits equal to fewer than 75 percent of the normal full-time load. For most undergraduates this would mean fewer than 12 semester hours.

Unclassified Student - A student who cannot be classified by level. Many unclassified students are permitted to take a limited or special selection of degree-credit courses without regard to requirements for a degree.

Undergraduate Student - A student who has not yet obtained a bachelor's degree.

Upper-Level Course - A course designed for juniors and seniors which is not normally open to freshman and sophomores.

Upper-Level Student - An undergraduate enrolled in a bachelor's degree program who has completed the sophomore year.

Credit Headcount Enrollment 1981 - 1990

**** WVU Health Sciences has 0 Medical, 117 Dental Students, and 28 Doctoral FTE. WVU has 182 Doctoral FTE.***

Full-Time Equivalent Enrollment represents for Undergraduates, the number of hours carried divided by 15; for Graduates, the number of hours divided by 12. This table separates Undergraduates first by Health and Engineering, next; according to Course Level: Foundation, Upper and Lower. Undergraduate students taking graduate level courses are included in upper level.

Chapter 2

Degrees Conferred (1989 - 1990)

The tables in this chapter present an analysis of the degrees conferred and the teacher certifications awareded during the 1989-90 academic year by the public and private institutions of higher education in West Virginia, as well as eleven-year-trends in total degrees. The section detailing programs of study offered by West Virginia institutions is current as of March 1991, and includes certificate programs of one-year duration at the undergraduate level and certificates of advanced study at the graduate level which the rest of the chapter omits.

Definitions

The National Center for Educational Statistics' publication, *A Classification of Instructional Programs* , provided the background for the 26 academic areas of study (not counting the Regents B.A. degree program) by which degrees were reported in this chapter.

Associate Degree

A degree awarded upon completion of at least two, but fewer than four years of work beyond high school.

Bachelor's Degree

A degree granted upon completion of an educational program requiring at least four, but no more than five, years of academic work in the liberal arts, sciences, or professional fields.

First Professional Degree

A degree which signifies the completion of the academic requirements for a selected profession, which is based on an educational program requiring at least two academic years of previous college work for entrance, and a total of at least six academic years of college work for completion. First professional degrees included in this report are the Doctor of Dental Surgery (D.D.S.), the Doctor of Medicine (M.D.), the Doctor of Osteopathy (D.O.), and the Juris Doctor (J.D.).

Master's Degree

A degree customarily granted upon successful completion of one (sometimes two) academic years of work in the liberal arts and sciences beyond the bachelor's degree. The master's degree in professional fields is an advanced degree beyond the first professional, but below the Ph.D. degree.

Doctoral Degree

The highest academic degree in a given discipline or profession, based generally on three or more years of graduate work, satisfaction of a foreign language requirement, and completion of a special study resulting in a dissertation approved by a committee of the faculty.

The boxes on these pages display the teacher certifications awarded by West Virginia institutions. For each institution, the level or levels of the certifications are given first., followed by the academic area or program description, and the number of certifications awarded. For example, the first item under West Virginia University above indicates that 8 certifications were awarded to teach agriculture in grades 7-12.

Chapter 3

Faculty Characteristics (1990 - 1991)

This chapter presents faculty characteristics and remuneration at each West Virginia public institution of higher education. Faculty are those individuals engaged in instruction during the fall term of the 1990-91 academic year. Instructional personnel work on a full-time or part-time basis and are responsible for, or in charge of, a class, quiz, drill, or laboratory section. Teaching assistants, teaching fellows, lecturers, and laboratory assistants are included only if they meet the preceding criteria.

Student assistants, teaching assistants, and other personnel who fill subordinate functions do not make up part of this population. This chapter also excludes faculty in the medical schools as well as faculty contributing their services, and faculty paid from funds not controlled or disbursed by their respective institutions. The last group inlcudes military science instructors, teachers receiving no pay, and faculty paid by other public agencies at no expense to the institution.

These populations may differ from nationally recognized definitions for faculty, particularly those used for the data collections for the United States Department of Education, the American Association of University Professors, or the Equal Employment Opportunities Commission. This publication has used these definitions consistently over the years in order to effect year-to-year comparisions.

Definitions

Full-Time Faculty Members: A person employed by the institution in a full-time capacity, either teaching and research or teaching and/or research with perhaps additional administrative or other duties. The full-time faculty member is engaged in teaching at least one course.

Full-Time Faculty Member Engaged Exclusively in Instruction: A person employed by the institution in a full-time capacity, whose duties lie exclusively in teaching rather than partially in administration or some other function.

Part-Time Faculty Member: A person teaching in a part-time capacity, usually employed on a per-course basis. Part-time faculty do not usually receive fringe benefits, and, since remuneration is based soley on teaching load rather than on advising and administrative duties, pay is at a substantially lower rate than that of full-time faculty.

Highest Degree Held by Faculty: The fraction of faculty possessing a terminal degree (doctoral or professional) is one indicator of academic quality of an institution. The proportion of faculty with a doctorate also influences the expenditures for faculty salaries.

Nine-Month Salary: A typical academic year contract, which may be for nine or ten months of duties to the institution. Whether the contract salary is paid in nine or twelve monthly increments is not relevant. The amounts shown under nine-month salary data do not include summer school salaries, which are not a part of the regular academic year. Salaries of faculty who are paid on a 12-month basis are multiplied by .818 to arrive at a nine-month salary.

Academic Rank of Full-Time Faculty

Chapter 4

Fiscal Data (1989-90)

Traditionally, the higher education governing boards have played an active role in the management of all facets of public higher education. Among their many responsibilities is the supervision and control of the financial affairs of the sixteen institutions. This chapter summarizes the current operations of the State College and University Systems of West Virginia. Information presented in this report is drawn from financial reports completed by each institution shortly after the close of the fiscal year. The period covered by this report extends from July 1, 1989 through June 30, 1990.

By design, this chapter deals with a discussion of current operating and capital revenue and expenditures. Therefore, certain special fund groups such as Loan Funds (student loans), Agency Funds (institution acting as financial agent for payor), and the like are omitted. Current funds are categorized as follows: Educational and General, Auxiliary Enterprise, Student Aid, and Capital Improvements, and will be further defined and classified in the text of this report.

Tables in this chapter are grouped by System. Although certain comparisons among institutions and Systems are possible, and often beneficial, the reader should recognize that any interpretations drawn may be distorted due to differences in mission, enrollment, academic programs, funding levels, geographic locations, faculty characteristics, and other factors. Institutions may also vary with respect to the degree to which they undertake research, public service, and provide services of a non-educational nature to students, faculty and staff. The University System institutions in general, and the health science institutions in particular are inherently different, and although presented together the data should not be used for comparative pruposes.

Total Operating and Capital Revenue and Expenditures

The following two tables reflect the total operating revenue and expenditures of the State College and University Systems of West Virginia for fiscal year 1989-90. They are presented and categorized as follows:

Educational and General operations of the institutions include the basic Instruction, Research, and Public Service activities as well as the necessary ancillary services of Academic Support, Student Services, Institutional Support and Physical Plant Operations.

Auxiliary Enterprise operations primarily involve providing services of a non-educational nature to students, faculty and staff. Even though the existence of these services is important, they are not directly related to the fulfillment of the institutions' educational objectives. Included among these operations are housing and dining, intercollegiate athletics, student unions, bookstores and certain parking, transportation and other operations.

Student Aid relates to gifts, grants, endowments, or other sources of income which are specifically designated for student scholarships, grant awards, and the like. It does not include student loans.

Capital Improvements includes funding from student fees dedicated by West Virginia statute to service outstanding debt or fund capital improvements as well as the proceeds of bond sales, interest income, and other revenues specifically earmarked for land acquisition, building construction and renovation, and capital equipment purchases.

Educational and General Revenue

Educational and General operating revenue is typically classified according to source. This report classifies educational and general revenue according to six major sources. A brief description of each source follows:

Student Fees - Revenue available for use by an institution from fees assessed students for educational and general purposes is included in this category. Included are those prescribed fees that must be paid by the student as a condition for applying for admission, enrolling in the institution, enrolling in specific courses, and graduation from the institution. Also included are those statewide student fees allocated by the governing boards to supplement institutional operating budgets. Excluded from this report are all other fees restricted by West Virginia statute from use as operating revenue.

Governmental Appropriations - Includes allocations to the colleges and universities by the governing boards from the State Legislature's annual operating appropriation. These allocations are sometimes restricted by the State budget categories of Personal Services, Current Expenses, Repairs and Alterations, Equipment, and certain other items. Amounts that were unspent revert to the State Treasury at the end of the fiscal year and are deducted from the original allocations. Also included are direct federal appropriations received by the State's Land Grant institution, West Virginia University.

Governmental Grants and Contracts - Includes revenue received from local, state, or federal government agencies to conduct specific activities or programs, or to provide designated services.

Private Gifts, Grants and Contracts- Includes revenue received from private individuals, business and industry, foundations, and the like which is available for expenditure for educational and general purposes.

Sales and Services - Includes revenue received by the institution from the sale of goods or services produced in conjunction with its educational programs, such as agricultural and dairy products, films, publications, and the like.

Other Income - Revenue available for educational and general purposes which is not classified elsewhere, such as unrestricted interest income, is included here.

Method of Analysis

There are two commonly utilized methods of analyzing educational and general revenue and expenditures. One compares the percentage relationship of each revenue sourse or expenditure function to total revenue or expenditures. This technique reflects the comparative degree of support provided by a specific revenue source. For expenditures, it indicates the level of support for one function compared to that given another function, and also reflects the emphasis a particular institution places on various expenditure categories.

A second approach is to consider revenue and expenditures on a per full-time equivalent (FTE) student basis. The FTE student is the nationally accepted means to translate student credit hours produced by an institution into a more manageable statistic. This statistic is most useful in comparing similar type institutions. It should be recognized that some educational and general activities, such as Research, Public Service, and Physical Plant Operations are not directly related to enrollment.

The following tables include percent of total and per FTE comparisons for educational and general revenue and expenditures respectively. For purposes of per FTE comparisons, theses tables use an annualized count of full-time equivalent students, which is comprised of the total of Fall, Spring and Summer FTE enrollments divided by two. The calculation basis for annualized FTE enrollment was changed in 1985-86 to more accurately reflect average yearly enrollment.

State General Fund Revenue comprises the major source of governmental appropritions.

Educational and General Expenditures

Expenditures for educational and general purposes include those expenditures for Instruction, Research and Public Service, as well as the necessary ancillary activities of Academic Support, Student Services, Institutional Support and Physical Plant Operations and are defined as follows:

Instruction - Includes all expenditures of the instructional departments and schools of the institutions, such as faculty salaries and benefits, office and classroom supplies, equipment, and other related operating costs. This category also includes departmental research which is not separately budgeted or organized.

Research - Includes all expenditures for separately organized and budgeted research activities, such as research bureaus, centers, institutes, and experiment stations. This category includes both externally financed contractural research and institutionally orgranized and financed research.

Public Service - Includes all expenditures for non-instructional activities designed primarily to serve the general public, including the costs of all conferences, workshops, public radio and television operations, cooperative extension services, and similar activities.

Academic Support - Includes expenditures designed to assist the institution in meeting its basic instruction, reserach, and public service mission by providing support services such as libraries, media and learning centers, academic computer support, as well as general academic administration, and faculty and curriculum development activities.

Student Services - Includes all expenditures for services to students, such as the admissions and records office, guidance and counseling services, placement services, health services, financial aid administration, student administration, and the like.

Institutional Support - Includes all expenditures of the general executive and administrative offices serving the institution as a whole as well as those expenditures of a general character not relating to any specific division or segment of the institution.

Physical Plant Operation and Maintenance - Includes all expenditures for the operation and maintenance of educational and general buildings and grounds such as utilities, and custodial services.

Other Revenue and Expenditures

Auxiliary Enterprise - Revenue and expenditures of the various colleges and universities from operations of a noneducational nature are categorized as Auxiliary Enterprises. The five major categories of Auxiliary Enterprises inlude Housing and Dining, Student Union, Bookstore, Intercollegiate Athletics, Parking, Transportation, and Other Operations.

The degree to which an individual institution provides Auxiliary Enterprise services to its students is dependent to a large extent on its size and type. An institution with a large resident population must necessarily provide more comprehensive services than one in which the majority of students are commuters.

Student Aid - Revenue from gifts, grants, endowments, and the like provided for the purpose of assisting individual students in defraying the costs of higher education is categorized as Student Aid. This aid may be in the form of need-based grants, awards for academic excellence, or combinations of these and other factors. Excluded from Student Aid presented in this chapter are privately administered shcolarships and grant programs, such as those normally awarded by private foundations, trusts and institutions, and student loans.

Capital Improvements - Funding for capital improvements at West Virginia's public colleges and universities is derived primarily from dedicated student Tuition and Registration fee collections, as well as proceeds from bonds sold for this purpose and redeemed with these fee collections. In addition, interest income, insurance proceeds and, to a limited extent, federal grants also provide revenue for Capital Improvements. Unlike most states, West Virginia uses almost no state tax revenues for this purpose. Capital Improvement revenue is generally collected in a central account under the Central Office of the State College and University Systems of West Virginia, and allocated by each governing board to their respective institutions for expenditure. Certain major projects, systemwide improvements, and all debt retirement expenditures are reported under the Central Office.
